Pub Quiz Fundraiser

Staying in is the new going out, and staying in whilst having a great time connecting with friends (and making some money for charity) is the new being an absolute legend!

The Wave Project Pub Quiz is perfect for playing as a family, via video link, by email, or even over the phone (simply omit the picture round!) – will you prove yourself to be a proper pro, or just a quizzing kook?

If you enjoy it, all we ask is that teams consider making a donation to help us continue to provide life-changing surf therapy for isolated young people: waveproject.co.uk/get-involved/donate

What you'll need:

For the quiz

- A quizmaster to read the questions and organise proceedings (they can still play if they don't look at the answers until the end of the quiz!)
- Teams!!! Any size and all ages are fine – you decide how big or small.
- A pen and paper, or some way of writing down your answers.
- An awesome team name.
- For the picture round - a laptop, phone or some device with a screen to view the pictures (you can print them out, but please consider the trees!)

For the bonus Super Creativity round

- Anything you can get your hands on in your home.
- Some way to share your masterpiece with your friends and family – either a photo or via video.

Time

- Around an hour to an hour and a half (you can take longer if you want to).

Before you start:

- Make sure all Teams are ready and can hear you.
- Send round the separate Picture Sheet to each Team.

Explain the bonus Super Creativity round:

Using whatever they can find in their houses, each team has to create an ocean scene! This could be a jellyfish made out of tinfoil, seahorses made from socks, or waves and surfers made from towels and spoons...! The only limit is imagination. They have the whole length of the quiz to make this, and whoever is judged by all Teams to have made the BEST one gets a bonus 5 points!

Round 6 – True or False

1. Agatha Christie was one of the first Brits to try stand up surfing in Hawaii.
   TRUE
   She and her husband Archie gave it a go on a world tour to promote 'The British Empire Exhibition'. She said there was "nothing like that rushing through the water at what seems a speed of about two hundred miles an hour."
2. People in the UK drink more tea per person than anywhere else.
   FALSE
   Turkey consumes the most tea per person (3.1kg per year), with Ireland second (2.2kg) and UK third (1.9kg).
3. Squirrels stop forests growing by eating acorns and other seeds.
   FALSE
   Squirrels are responsible for planting millions of extra trees each year because they forget where they've buried their stores of acorns.
4. Your brain uses 50% of the calories you burn in a day.
   FALSE
   Your brain is marvellously efficient and runs entirely on glucose, unlike any other part of the body. It requires only about 400 calories of energy a day — about the same as you get in a big blueberry muffin. Try running your laptop for 24 hours on a muffin and see how far you get...!

5. Enjoying a bath can have as positive an impact on your mental health as going for a run.
   TRUE
   A study by the University of Freiburg in Germany found that a regular 30-minute soak can dramatically improve a person's mental wellbeing. Of course, you can also try and do both!
6. Cows can't recognise each other personally.
   FALSE
   Cows have dedicated friends that they spend day in and day out with, and they get stressed when they are separated; it's also been proven that happier cows really do make more—and more nutritious—milk.
7. Magnolia trees are pollinated by beetles.
   TRUE
   Magnolia trees are such an old species that they were actually on earth before bees even existed! So, for thousands of years, they have relied on beetles to pollinate them and their beautiful flowers.
8. Only one member of The Beach Boys liked to surf.
   TRUE
   Dennis Wilson, the drummer of 'The Beach Boys' was in actual fact, the only one of the whole band to surf. He encouraged other members of the band to write about the sport, seeing as surfing was getting cool.
9. In Switzerland, if you own a guinea pig, you aren't allowed any other pets.
   FALSE
   In fact, it is illegal to own just one guinea pig; as they are social animals, they have to have a guinea pig companion. Other animals are also protected: goldfish are also required to have at least one tank-mate and cats must either live or have the opportunity to socialize with other cats on a regular basis.
10. The French name for a pie chart is a Camembert chart.
    TRUE
    Italians and Brazilians call them pizza charts, while in Sweden it is called a cake chart and in Germany, a tart chart.

Get everyone to add up their scores and send them through to the quizmaster. Then have everyone show off their Super Creative creations! Who's is the most impressive?

Scores will be out of 52 to start with, with an extra 5 points available for the Super Creativity Round.

Who are your winners? If you have a tie, perhaps you can all vote on who had the best team name, or come up with a tie-break question!
